PROFILE SUMMARY

Aspiring Python developer with hands-on experience in web scraping, automation, and building user-focused tools. Passionate about creating practical solutions through clean code and exploring emerging technologies. Built and published browser extensions and scripts to solve real-world problems for users.

EDUCATION

2024 - PRESENT
MARWADI UNIVERSITY

- Master of Computer Application

2021 - 2024
ATMIYA UNIVERSITY

- Bachelor of Computer Application
- CGPA: 7.60

WORK EXPERIENCE

Imbuesoft LLP

MAY 2023 - JUN 2023

Digital Marketing Intern

- Designed marketing materials for Vistaderm, increasing brand visibility and engagement. Learned and implemented strategies for boosting client business through digital ad campaigns based on marketing budget.
- I also gained a better understanding of how digital campaigns influence brand growth and customer engagement.

SKILLS

- Python, JavaScript
- Git, Github
- Redis, MySQL
- Selenium, BS4
- Scrapy, Figma
- Tampermonkey

PROJECTS

Ghost Clean

Published on Firefox

- Ghost Clean (JavaScript, Browser Extension APIs) - Built a privacy-focused Chrome and Firefox extension that allows users to instantly clear browsing data, cache, and cookies & already published on FIREFOX.

Price Scraper

- Price Scraper (Python, BeautifulSoup, Scrapy, Selenium) - Developed an automated tool that scrapes prices from multiple e-commerce sites and provides price comparisons to help users make informed purchasing decisions.

Indie Vibes

- Indie Vibes (HTML, CSS, JS, PHP, MySQL) - Created a platform for independent artists to showcase their music without relying on mainstream streaming services. Designed an intuitive UI with seamless backend integration.

TradingView AdBlocker

- TradingView AdBlocker (Javascript, Tampermonkey) - Created a useful tampermonkey script to block annoying ads on tradingview chart pages which helps to maintain focus.

SOFT SKILLS

- Team building
- Critical thinking
- Creativity
